**OaCP**

# ←... OUR STORY

**OaCP IE LTD** (Oncology and Cytogenetic Products) is a company that was conceived in 2015 as a project within the Bologna University Entrepreneurship Program called **Launch Pad**. “We decided to create the company as the driving tool for commercialising and bringing to market, the technological developments realised from the project”.

Initially, the company was called DoMo Genetics and won the first edition of the **Launch Pad Program** and enrolled into the **TVLP.co** mindset program in **Silicon Valley** (Menlo Park, SF). During this 20-days program, our company was awarded one of the **best projects**.

One year later, OaCP was officially incorporated and was selected to take part in the **RebelBio Accelerator Program** in Cork. We have an aggressive and strategic growth strategy that has seen us securing distribution agreements with companies in Japan, South Korea, Latvia, Australia, New Zealand and India within the first 4 months of incorporation. Our company is headquartered in Ireland with an R&D dept. at the Bologna University, where we enjoy not only their world-class equipment and facilities but also maintain key industrial partnerships and collaboration with the University and research groups.

## COMPANY ACHIEVEMENTS AND MILESTONES ACHIEVED

Bologna University  
Entrepreneurial  
program winner

One of the Best at  
TVLP program

Incorporation

RebelBio Program

2<sup>nd</sup> prize at China  
and Italy  
innovation and  
entrepreneurship  
competition in  
Chengdu

# OUR PRODUCTS

We aim to provide reagents that will create a rapid genetic diagnostic system that will reduce the test time for cancer diagnosis from 3 days to just 2 hours.

## OUR PRODUCTS RANGE INCLUDE

- Rapid-ISH Integra: for standard samples
- Rapid-ISH Integra Plus: for difficult samples
- Rapid-ISH Integra Recovery: for treating samples with a bad first test procedure
- Rapid-ISH Hemato: for onco-hematological samples
- Smart-ISH Solve: used when the test cost is the main problem
- TITAN FISH PROBES: Top quality, Safe data, custom hybridization time from 40 minutes\* to O/N
- EASY FISH pretreatment KIT

## KEY ENTREPRENEURIAL COLLABORATORS

**ANOPOLI**  
Biomedical Systems

**SMC Sambo**

**funakoshi**  
FRONTIERS IN LIFE SCIENCE

**ALMA**  
ALUMINUM CHEMICALS INDUSTRIES HONGKONG

**DPC** Lebanon S.A.R.L.

**RebelBio**

**BIO** Scientific pty. ltd.

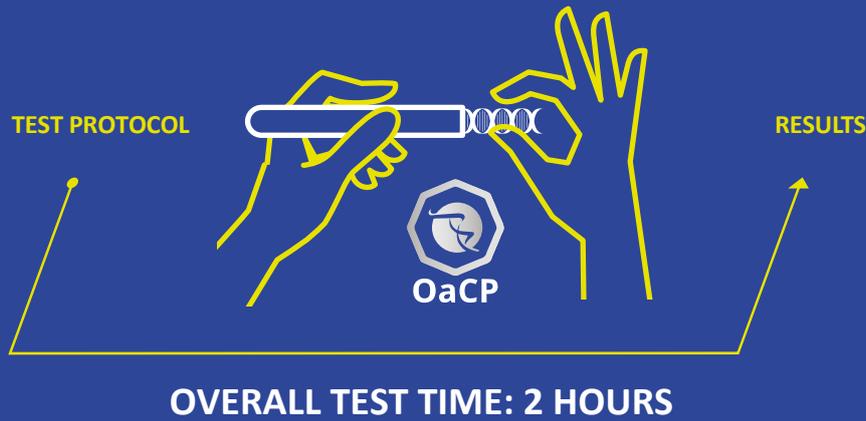

**GenMedica**

\* with the appropriate RAPID-ISH buffer

# Is it possible to perform a **FASTER** and more **COST-EFFECTIVE** ISH Test?

Yes, but only with OaCP **RAPID-ISH** Reagents Line

## FASTER AND COST EFFECTIVE FISH TEST

## MAIN FEATURES

FAST

AFFORDABLE

EASY TO USE

97% FASTER VS  
STANDARD

No dedicated  
instrument needed

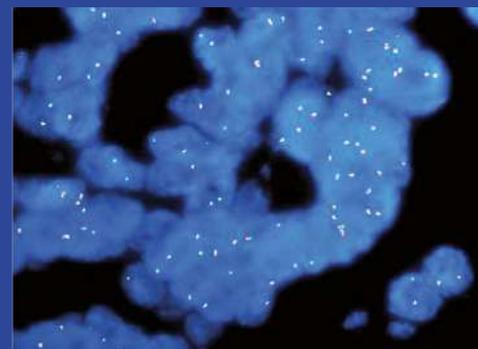

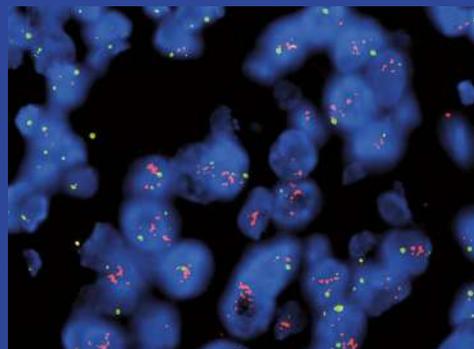

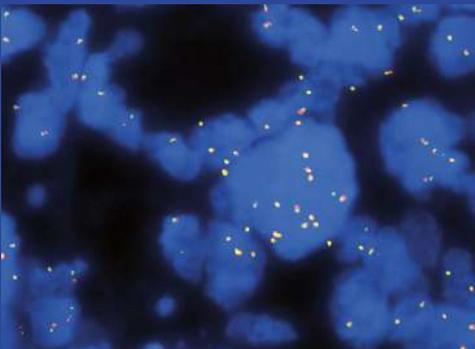

Don't change  
your protocol\*

Simply add with  
the probe

## RESULTS

# Is it possible to maintain the ISH test QUALITY and SAVE COSTS?

Yes, but only with OaCP  
**SMART-ISH** Buffer

## SMARTER AND COST EFFECTIVE FISH TEST

## MAIN FEATURES

AFFORDABLE

EASY TO USE

No dedicated  
instrument needed

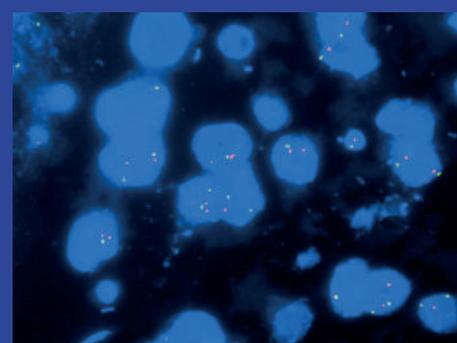

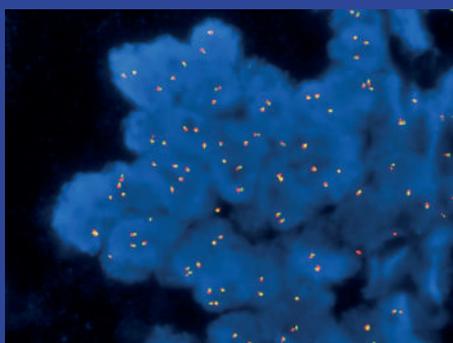

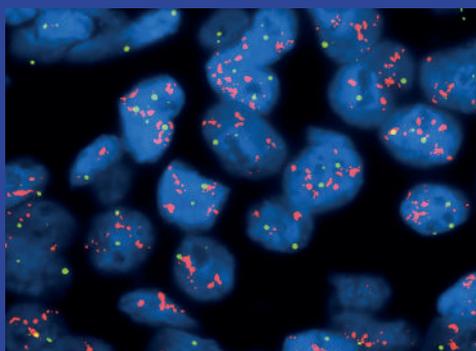

Don't change  
your protocol\*

Simply add with  
the probe

## RESULTS

\* For a specific protocol go to [www.oacp.i](http://www.oacp.i) The existent protocol could be setted up for a best product performancet

# OACP TITAN FISH PROBES

## WELCOME TO **THE NEW STANDARD**

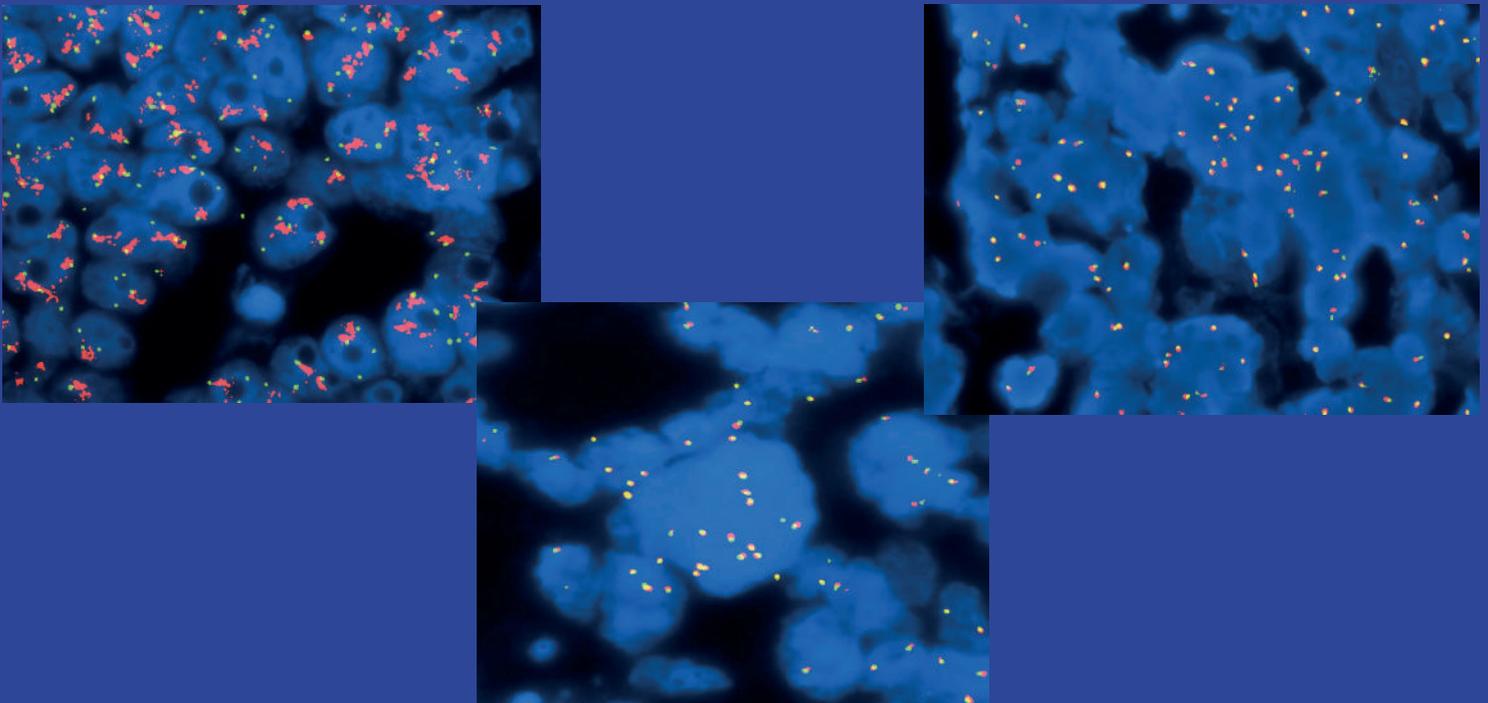

With the OaCP FISH Probes, labs will acquire the new standard in the in Situ Hybridization technologies. Rapidity, Sensitivity, Specificity, Accuracy, Reliability, Simplicity, Low background signal for easy and better interpretation.

### MAIN FEATURES

- **MORE THAN 60 PROBES LIST**
- **MORE THAN 300 CUSTOM PROBES**
- **HYBRIDIZATION TIMES: 40MINS\* - 2HOURS - O/N**

### RESULTS

# EASY FISH PRETREATMENT KIT

**EASY - FULLY COMPATIBLE - UNIVERSAL**

Are you bored by preparing and checking lab solution every single day?

Does it consume your time and resources?

OACP presents **EASY FISH** Pretreatment solutions KIT (for FFPE Tissues): a fully compatible product that has been studied to make FISH Tests easier.

With only one kit you can perform the pre-treatment protocol for multiple tissue types and probes.

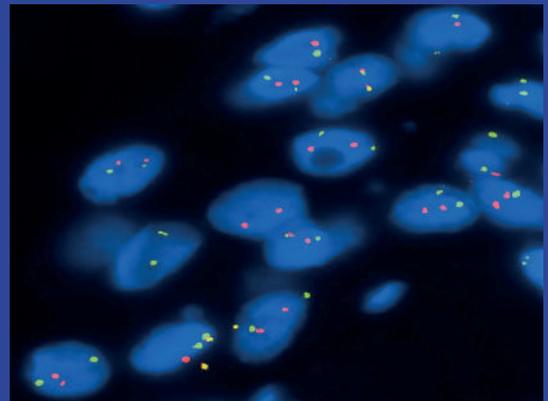

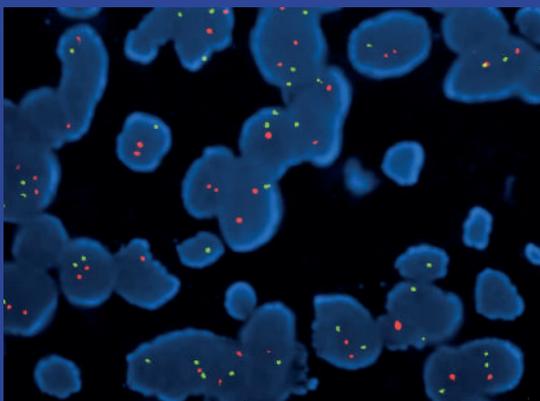

It is all about an initial set-up and the rest of the lab work will be Easy, simple and with a lower risk of making errors.

EASY FISH is compatible not only with the Rapid-ISH and Smart-ISH buffers but with almost all the commercial probes already in the market.

## MAIN FEATURES

- **250 ml Concentrated WASH BUFFER**
- **250 ml OACP STRINGENT WASH SOLUTION**
- **250 ml OACP PEPSINE SOLUTION**
- **250 ml OACP CITRATE BUFFER**

## RESULTS

## OUR PRODUCTS

- 031114-DO Rapid-ISH Integra 100ul (20 test)
- 031114-MO Rapid-ISH Integra Plus 100ul (20 test)
- 031114-DM Rapid-ISH Integra Recovery: 100ul (20 test)
- 031114-HE Rapid-ISH Hemato: for onco-hematological samples 100ul (20 test)
- 20175 Smart-ISH Solve: used when the test cost is the main problem 100ul (20 test).

- TITAN FISH PROBES:
- More than 60 FISH probes
- More than 300 Custom FISH probes
- Ready to use, Spectrum Orange and Green labelled
- Download the Probe list from [www.oacp.it](http://www.oacp.it)

- 0318 EASY FISH PRETREATMENT KIT:
- 0318WBC 250 ml Concentrated WASH BUFFER
- 0318 SW 250 ml OACP STRINGENT WASH SOLUTION
- 0318PS 250 ml OACP PEPSINE SOLUTION
- 0318CB 250 ml OACP CITRATE BUFFER

LESS TIME FOR DIAGNOSIS, MORE TIME FOR LIFE

VISIT OUR WEBSITE: [WWW.OACP.IT](http://WWW.OACP.IT) AND ORDER A DEMO

Our objective is to provide oncology diagnostics laboratories and research institution with solutions that will disrupt cancer diagnosis times and costs  
We believe that quality of work in molecular biology is fundamental in delivering a rapid and cost-effective solution to a world that is demanding that answers be delivered accurately and quickly. Our mission is to reduce test time, eliminate cancer misery and save patients' lives. To achieve this mission, we count on key values: Quality, Competence, Accuracy, Teamwork and Integrity, shared by our teams.
